### Note for Researchers

Readers and researchers should be aware that occasional changes in the manner in which cases are reported or recorded by the Alaska Court System may account for some changes over time in case filing totals for specific courts or jurisdictions. While the court system attempts to make the data tables in the annual report as consistent as possible from year to year, care is necessary, especially when discerning trends or making comparisons between time periods.

# **Statewide Trial Courts**

# **Trial Court Activity**

### **Filings**

During FY21, 101,768 cases were filed in the trial courts, a decrease of 15.8 percent from 120,929 filings in FY20.

The FY21 Superior Court filings were 22,150, a decrease of 3.2 percent from 22,888 filings in FY20. Delinquency filings decreased by 28.9 percent, felony filings decreased by 8.7 percent, general civil filings decreased by 7.2 percent, CINA filings decreased 6.8 percent, and domestic relations filings decreased by 4.5 percent. Probate filings increased by 11.4 percent.

The FY21 District Court filings were 79,618, a decrease of 18.8 percent from 98,041 filings in FY20. Small claims filings decreased 35.5 percent, minor offense filings decreased 22.1 percent, civil protective order filings decreased 14.5 percent, misdemeanor filings decreased 11.0 percent, and general civil filings decreased 10.1 percent.

### **Dispositions**

The trial courts disposed of 101,420 cases in FY21, a decrease of 13.8 percent from the 117,647 dispositions reported in FY20. To avoid a backlog of cases awaiting disposition, courts aspire to have a clearance rate of 100 percent or higher, meaning that they have cleared (i.e., disposed of) at least as many cases as were filed during the period. The clearance rate for trial court cases was 99.7 percent in FY21.

# **Explanatory Notes**

# Felony Filings

Most felony cases are initiated in District Court and then transferred to Superior Court after indictment by a grand jury or the filing of an information. Since most of the activity in a felony case typically occurs in the Superior Court, felony cases are reported as Superior Court filings regardless of whether they were initiated in District Court or in the Superior Court. A table showing the number of felony cases initiated in the District Court is provided for informational purposes (Table 5.13, page 70). To avoid double counting, these filings are not included in the District Court filing totals, but should be considered when evaluating the **workload** of a District Court.

## Criminal Case Categorization

Criminal cases are categorized based on the most serious charge at filing. For example, if a defendant is charged with a felony and two misdemeanors, the case is counted as a felony. If the felony charge is subsequently reduced to a misdemeanor, the case type does not change; the case is still categorized as a felony for reporting purposes.

### Reopened Cases

The criminal filing statistics in this report include only new case filings and do not include petitions to revoke probation or other proceedings that cause the court to reopen a criminal case. Likewise, the

domestic relations filing statistics include only new case filings and do not include post-judgment motions to modify custody, support or visitation. Because this post-judgment activity significantly impacts the trial court workload, tables showing this activity are provided for informational purposes. The number of petitions to revoke probation in felony and misdemeanor cases can be found in Tables 4.11 and 5.14 ((pages 36 and 71). The number of filings of motions to modify custody, support, or visitation can be found in Table 4.19 (page 44).

#### Civil Protective Order Cases

The civil protective order case group includes petitions for domestic violence, stalking, and sexual assault protective orders. These cases may be filed in either District or Superior Court, but District Courts handle the vast majority. Because readers and researchers often want to know the total number of civil protective order cases that were filed, domestic violence, stalking, and sexual assault protective order cases filed in the Superior Court are counted with the District Court cases.

#### Note for Researchers

Readers and researchers should be aware that occasional changes in the manner in which cases are reported or recorded by the Alaska Court System may account for some changes over time in case filing totals for specific courts or jurisdictions. While the court system attempts to make the data tables in the annual report as consistent as possible from year to year, care is necessary, especially when discerning trends or making comparisons between time periods.

Criminal cases typically contain multiple charges. The Alaska Court System categorizes cases for reporting purposes based on the most serious charge.

In FY07 the Alaska Court System changed the way it categorizes criminal cases for annual reporting. The categories now conform to the National Center for State Courts' national model for caseload statistical reporting. This change is intended to make Alaska statistics easier to compile, understand, and compare to those of other jurisdictions.

Criminal cases typically contain multiple charges. The Alaska Court System categorizes cases for reporting purposes based on the most serious charge.

In FY07 the Alaska Court System changed the way it categorizes criminal cases for annual reporting. The categories now conform to the National Center for State Courts' national model for caseload statistical reporting. This change is intended to make Alaska statistics easier to compile, understand, and compare to those of other jurisdictions.

In FY07 the Alaska Court System changed the way it categorizes minor offenses for annual reporting. The traffic categories now conform to the American Association of Motor Vehicle Administrators (AAMVA) Code Dictionary. This change is intended to make Alaska statistics easier to compile, understand, and compare to those of other jurisdictions.
