Emergency Procedures Quick Reference .....	Back Cover

## FIRE AND EXPLOSION

Any person discovering fire or smoke should immediately transmit the fire alarm as follows:

1. Telephone the Fire Department: \_\_\_\_\_ Give: (Number)
  - a. Your name
  - b. Alaska Court System
  - c. Telephone number
  - d. Specific location (floor and room number) of the fire or explosion
  - e. Extent of the fire, for example, wastebasket and carpet, storeroom, etc.
  - f. Be calm, clear, and concise
  - g. Note time of call and name and title of person who took your call
  - h. *DO NOT HANG UP FIRST*; the responder may need additional information
2. Activate one of the Fire Alarm Boxes located in the building
  - a. Location of alarm boxes: \_\_\_\_\_
  - b. The alarm boxes are operated by \_\_\_\_\_
3. **DO NOT** attempt to fight a large fire; leave that to the Fire Department. Remember to report all fires; even a small one can get out of hand and the sooner the Fire Department is notified the sooner help will arrive if they are needed.
4. If time permits, at no risk to personal safety, put sensitive documents in the safe. Place any exposed documents in file drawers or cover them to offer protection from damage. Disconnect any electrical appliances.
5. The last person to leave a room should **CLOSE BUT NOT LOCK** the door.
6. Provide Assistance to others as time and circumstances permit.
7. If employees are required to evacuate the area, follow the evacuation plan (as safety allows), developed for your facility, which should include:
  - a. **a prearranged communication plan for notifying all building occupants and making sure all floors are cleared;**
  - b. **floor plans showing exact locations of primary and secondary fire stairwells, and fire extinguishers;**
  - c. **guidelines for securing funds, exhibits, documents, computers, etc.;**
  - d. **prearranged meeting place so you can assess who is still missing.**
8. After the fire/smoke problem is over, contact your area court Administrator and make arrangements to protect the premises.

## **Instructions to Assist in Escaping from a Fire**

### **Keep Calm**

**Do not use elevators.**

**Walk rapidly – do not run.**

**Before opening any doors, feel the door and if it is hot, do not open it.**

**If possible, close all doors, as this will slow the spread of fire.**

**If you are caught in smoke, take short breaths and breathe through your nose (cover nose and mouth with thin cloth, dampened if possible), crawl along the floor; the air is cooler and smoke less dense. If forced to make a dash through smoke or flame, hold your breath.**

## BOMB THREATS

### 1. Bomb Threats Received by Phone

- a. ***Don't panic!*** Be calm and courteous and listen carefully.
- b. Question the caller to obtain as much relevant information as possible. Ask questions, such as: **Use the following BOMB THREAT CHECKLIST.**
- c. Write down the exact words of the caller, the time you received the call, observations about the voice, background noises, etc. **Use the following BOMB THREAT CHECKLIST.**
- d. Immediately notify \_\_\_\_\_ (insert proper contact for your court). Are there other tenants in the building that should be notified? If so, list below:  

---

---

---
- e. Check carefully around your work area for parcels, briefcases, etc. that do not belong there. **DO NOT** touch, handle or otherwise disturb a suspicious object. When police or fire authorities arrive, alert them to the presence of any suspicious object.
- f. If the area is evacuated, **LEAVE ALL DOORS OPEN** for access by bomb search personnel. Also, if there is an explosion, the pressure created will escape and thus reduce some of the damage.

### 2. Suspected Bomb: Immediately notify \_\_\_\_\_

---

- **DO NOT TOUCH** the suspected object
- **Evacuate** immediate area.

### 3. Suspicious Packages Received by Mail: Letter or package bombs often have characteristic give-away signs that can help alert you to their contents. See Mail Bomb Recognition Checklist on page 6 for common characteristics.

If you discover a suspicious piece of mail - **STOP - DO NOT HANDLE IT ANY FURTHER.** Call your security officer or local police/fire department.

### 4. **If employees are required to evacuate the area, follow the evacuation plan (as safety allows) developed for your facility, which should include:**

- a prearranged communication plan for notifying all building occupants and making sure all floors are cleared;
- floor plans showing exact locations of primary and secondary fire stairwells and fire extinguishers;
- guidelines for securing funds, exhibits, documents, computers, etc.;
- prearranged meeting place so you can assess who is still missing.

## BOMB THREAT CHECK LIST

Date/Time call received \_\_\_\_\_

Exact words of caller: \_\_\_\_\_

**TRY TO KEEP THE CALLER TALKING. ASK QUESTIONS LIKE:**

When will it go off? \_\_\_\_\_

Where is it located? \_\_\_\_\_

What kind of bomb is it? \_\_\_\_\_

What does it look like? \_\_\_\_\_

How did it get into the building? \_\_\_\_\_

Why was the bomb put there? \_\_\_\_\_

Where are you calling from? \_\_\_\_\_

What is your name and address? \_\_\_\_\_

DESCRIPTION				
Voice	Speech	Manner	Background Noises	Language Skills
<input type="checkbox"/> Male	<input type="checkbox"/> Fast	<input type="checkbox"/> Calm	<input type="checkbox"/> Machines	<input type="checkbox"/> Excellent
<input type="checkbox"/> Female	<input type="checkbox"/> Slow	<input type="checkbox"/> Angry	<input type="checkbox"/> Trains	<input type="checkbox"/> Good

Time caller hung up: \_\_\_\_\_

Name of person receiving call: \_\_\_\_\_

Telephone number at which Bomb Threat was received: \_\_\_\_\_

Remarks: \_\_\_\_\_

Date and time security notified: \_\_\_\_\_

## MAIL BOMB RECOGNITION CHECKLIST

### LETTERS AND LARGE ENVELOPES

- Oil stains caused by “sweating” of the plastic explosives
- Evidence that it has been opened and re-glued or has been taped
- Peculiar odor
- Wires or strings sticking out or attached
- Feeling of “springiness” in the sides, bottom or top

### WEIGHT

- Heavier than usual for its size
- Heavier than usual for its class (i.e. an air mail envelope that weighs more than two ounces)

### RIGIDITY

- Great rigidity than normal, particularly along its center length

### THICKNESS

- Thickness is not uniform throughout
- For medium sized envelopes, the thickness is of a small book
- For large envelopes, bulkiness is greater than one inch

### ADDRESS

- No return address
- Hand printed
- Addressed to high-ranking official within organization
- Title of executive is incorrect/spelling errors evident
- Poorly typed or handwritten address

### WRITING

- Marked (written or stamped) personal, confidential, private, etc.
- Marked (written or stamped) airmail, registered, certified, special
- Misspelled words, particularly those in common usage

### STAMPS

- More than enough postage for the piece

### POSTMARK

- Foreign
- From some unusual city or town

As stated these are common characteristics and do not preclude the use of any other techniques by an individual that wishes to cause harm or disruption to the Court.

## EARTHQUAKES

1. During the Earthquake:
  - a. Keep calm, do not run or panic.
  - b. Remain in the general area; do not try to leave.
  - c. Take cover under tables, desks, etc., in doorways or against inside walls. Stay away from glass windows and doors and do not run outdoors.
  - d. Stay clear of shelves and high piled material.
  - e. If the main electric power source has failed, is the building equipped with an auxiliary generator with emergency power to light stairwells, courtrooms, and hallways?
  - f. If you are in an elevator, stop at the nearest floor and get off the elevator. If the car comes to a stop between floors, REMAIN CALM and push the "Emergency Call" button. Arrangements will be made for your evacuation.
  - g. If you are outdoors, move away from buildings, poles and downed wires.
2. Following the Earthquake:
  - a. Check your immediate area to see if anyone requires medical Assistance. Report injuries to supervisory or security personnel.
  - b. Follow all instructions issued by supervisory, security, or emergency service personnel.
  - c. Supervisors or designated personnel should check for damage or dangerous conditions, such as fire, smoke, loose wires, ruptured water pipes or other conditions requiring immediate attention.
3. Severity of the earthquake and the amount of damage to the building will determine what other emergencies must be handled and whether or not the building should be evacuated. If the building is evacuated, *DO NOT* re-enter the building until it has been cleared by security or emergency service personnel.

## MEDICAL EMERGENCIES

1. Call local ambulance or medic immediately and state you need medical aid. Telephone No. \_\_\_\_\_
2. Give your name, location, and phone number.
3. ***Describe type of problem or injury to the best of your ability. Take a minute to check for Medic-Alert tags or bracelets.***
4. Give the exact location within the building.
5. ***DO NOT HANG UP.*** The person taking your call may have questions or need additional information.
6. Where available, notify a court security officer.
7. Prevent others from crowding around the person.
8. *Send someone to the building lobby and wait for responding unit to show them the quickest route to the victim.*

## HOSTAGE SITUATIONS

1. Remember that the number one priority of law enforcement is to get the hostages out safely. Most often their number one tactic will be delay, delay, delay – to buy time.
2. If you can escape safely, then by all means do so.
3. Do all you can in the first few minutes to reduce the tension level. Analyses of hostage events indicate that the first 20-30 minutes are the most critical.
4. Certain behaviors on your part can increase your safety. These include:
  - a. Comply with requests but do not be overly cooperative; humor hostage taker.
  - b. Have faith that attempts are being made to rescue you.
  - c. Retain a sense of flexibility and sense of self worth.
  - d. Blend in with the group as much as possible; don't be overly resistant or overly compliant.
  - e. Detach yourself from the event by engaging in fantasy, thereby getting out of the situation mentally.
  - f. Maintain as much routine as possible.
  - g. Use any opportunity to pass out information to the police.
  - h. If you receive an instruction from the police, obey immediately.

## DURESS ALARMS

1. When to push the duress alarm:
  - a. Visually armed, upset individual
  - b. Threats of bodily harm
  - c. Other emergency situations where you can't seek help by telephone
2. If it becomes possible, follow up with a telephone call so you can inform the police of the situation you are facing.

**NOTE:** If the dangerous individual becomes aware of the fact that you have set off the alarm, you may be forced to call the police and say it was just a mistake. Each court should develop a code system to alert the police that there is still danger. Ask your supervisor.

3. If employees elsewhere in the building become aware of the situation, they should move away from the trouble area.
4. How to operate the alarm: ask your supervisor to show you how the alarms in your location are set off and reset.
5. The alarm system should be tested on a monthly basis, if possible. Any tests must be coordinated with the responding agency by the clerk of court or other designated supervisor.

**Alaska Court System  
ANCHORAGE COURT COMPLEX**

**EVACUATION PLAN – COURT SYSTEM EMPLOYEES**

The evacuation process must be completed. DO NOT try to re-enter the building even if you are informed that the emergency is no longer in effect.

1. If alarm rings, immediately evacuate the premises.
2. If word-of-mouth evacuation instructions come from court system or emergency personnel, evacuate immediately.
3. **Evacuation Assistance** - Judicial Services is responsible for coordinating the evacuation of people who need Assistance. The people in need of Assistance should be directed to wait near the **PUBLIC** elevators for evacuation. Wait for Assistance. **DO NOT TAKE THE ELEVATOR.**
4. **All Others** - Evacuate to the nearest exit - **DO NOT TAKE THE ELEVATOR.**
5. Employees need to have their security I.D. cards on their person; otherwise, upon re-entry to the building, they will have to go through the public entrance.
6. Immediately assemble at the Captain Cook Hotel in “**The Pantry**” area. **Do not leave the area.**
7. Immediately report to your supervisor so the department’s personnel can be counted.

**Note: Any missing personnel will be reported to the emergency personnel.**

8. Wait for further instructions from your immediate supervisor.

**ALASKA COURT SYSTEM**  
**Volcanic Eruption Response Policy for Electronic Equipment Protection**

In the event of a Volcanic Eruption the following procedures should be executed:

**1. If Ash Falls During Work Hours**

- ✓ Maintenance personnel will close down the intake of fresh air into the buildings to prevent damage to HVAC systems and to lessen the amount of ash brought into the buildings.
- ✓ If the HVAC systems have been shut down, PCs, Printers, laptops, etc. will NOT need to be shut off. Information Services will send out an email notice to all Anchorage court employees notifying them of the status, and if they will need to shut down the equipment or not. If email is down, IS will notify the ACA, COC, or Supervisor by phone.
- ✓ Information Services **may** at that time also direct court staff at affected locations to shut off office equipment, and to cover PC's, monitors, faxes, copiers, etc using clean dry trash bags from their trash cans or the janitor's closet. An extra supply of large plastic bags can be found in the janitor closets of each court building. Each box holds 50-100 additional bags and is marked "FOR COURT EMERGENCY USE ONLY - Not for Janitorial Use". In an emergency, Supervisors can access janitorial closets to use the stored plastic bags.
- ✓ Specific to Snowden: The new cooling system installed in the IS Server Room, can continue to provide cooling air into the room during an ash fall - it does not require outside air intake to function. There is also some cooling available using the stand alone portable AC Unit in IS.

**2. If Ash Is Falling After Work Hours or On The Weekend**

- ✓ Maintenance personnel will come in and shut off outside air intake to the buildings, but there is no guarantee that it will be done timely enough to prevent all infiltration of ash into the HVAC systems and buildings.

**If the HVAC systems have been shut down:**

- ✓ Information Services staff will come into the buildings to survey the situation to decide at the time of an incident what appropriate action needs to be taken.

**If the HVAC systems have NOT been shut down:**

- ✓ Information Services staff will come into the buildings to survey the situation to decide at the time of an incident what appropriate action needs to be taken. This will include locating someone from the appropriate maintenance organization to shut the HVAC systems down and may include covering up all equipment in the three Anchorage buildings. IS staff will contact other court locations outside of Anchorage as necessary.

During times that the alert status is **low** (which will be anytime that notification has not been issued for a higher alert status), employees should continue with the current policy that **all computers are to be left on at all times**. PCs and other equipment should **NOT** be covered until notified by IS to do so.

## EMERGENCY PROCEDURES QUICK REFERENCES

### FIRE

1. PERSON WHO DISCOVERS THE FIRE SHOULD CALL FIRE DEPARTMENT:  
\_\_\_\_\_\*
2. WHEN ALARM GOES OFF; EVACUATE THE BUILDING. DO NOT USE ELEVATORS.
3. GO TO THE DESIGNATED ASSEMBLY POINT OUTSIDE THE BUILDING SO YOU CAN BE ACCOUNTED FOR.

### BOMB THREAT

1. USING THE CHECKLIST, WRITE DOWN EXACT WORDS OF CALLER.
2. ASK QUESTIONS TO OBTAIN AS MUCH INFO AS POSSIBLE.
3. REPORT CALL TO \_\_\_\_\_,  
\_\_\_\_\_\*\*
4. CHECK THE IMMEDIATE AREA FOR UNFAMILIAR OBJECTS. REPORT ANY FOUND TO SUPERVISOR/COURT SECURITY.
5. EVACUATE BUILDING, IF TOLD TO.

### EARTHQUAKE

1. REMAIN WHERE YOU ARE. IF INSIDE, TAKE COVER UNDER DESK, TABLE OR DOORWAY. (STAY AWAY FROM GLASS WINDOWS AND DOORS, TALL SHELVES AND CABINETS).
