The only change is in the suffix (the 2 letters at the end of the number). The suffix changed from "CR" to "AU."

For example, case number 3AN-14-16234 **CR** became 3AN-14-16234 **AU**.

This change was made to clarify that these offenses are **not** criminal offenses.

**Note:** If any of the above offenses were filed with related criminal charges, the case number has not changed.
